Q235 Raw Material Warehouse Storage Selective Pallet Racking With Adjustable Mobility

Our Product Introduction

Basic Information

Product Specification

- Model NO.: QIFEI-Heavy Duty Rack
- Material: Steel
- Structure: Rack
- Type: Pallet Racking
- Mobility: Adjustable
- Height: 0-5m
- Weight: 500kg
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 15 Days
- Raw Material: Q235
- Surface Treatment: Powder Coating
- Transport Package: Safe

Product Description

***Note: The specifications, sizes, colors and surface treatments of the products can be customized!**

Selective Pallet Racking

The **Selective Pallet Racking** system is designed to store pallets in a mechanical and functional way using forklifts. These forklifts access goods through aisles parallel to the racks.

These forklifts access the goods through aisles that run parallel to the racks.

Conventional pallet racking is a logistics proposal **adaptable to the dimensions of the load units and forklift trucks.**

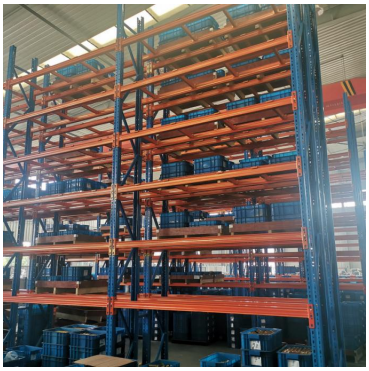
Efficient, resistant, easy-to-assemble, and with simple load level regulation, this system adapts to any type of product, both by weight and by volume. These systems can be adapted for picking.

Advantages of the Selective Pallet Racking system:

Adapts to any type of unit load and forklift.
Allows direct and immediate access to goods.
Quick and efficient assembly, disassembly and replacement of parts.
Quick placement and access to every pallet **directly and immediately.**
Strict control of stored SKUs; each storage location matches a unit load.
Time and effort saving when handling goods, achieving high stock rotation.
Ability to meet changing needs.
With a variety of available accessories and configurations, the rack can be tailored to any load weight or volume.
Maximization of space by easily and quickly adjusting beam levels to meet any required volume.
Easy-to-assemble modular structure. The assembly design of the different structural elements makes disassembly and re-installation easy, as well as any racking reconfiguration and/ or enlargements in case of new storage needs.
Increased safety factor thanks to the accessories used.
The AR-range uprights and frames are pre-galvanised and have an innovative traceability system.

Main applications of Selective Pallet Racking:

Since it is the **most common and conventional storage system** it is the most widely used, and thanks to its adaptability and versatility its application is useful for diverse storage needs.
However, we specifically recommend using a Selective pallet racking system in the following situations:
Storage of unit loads with a wide variety of references.
Storage with need for direct access to each unit load.
High turnover storage with non-homogeneous products.
Storage of non-standard unit loads that require specific accessories, such as coils, drums and containers.
Warehouses that require a combination of pallet and picking racks.



Packaging & Shipping

Company Profile

Jiangsu Qifei Intelligent Storage Equipment Co., Ltd, established in 2020, is one of the leading manufacturer which specialized in designing & manufacturing industrial warehouse storage racks, automation warehouse system and professional logistics equipment, we aim to provide cost-effective and space utilization storage solutions for all customers worldwide .
We have powerful R&D teams,including 8 experienced design engineers.
Qifei's workshop equipped with 6 automatic production lines of rolling and curved steel and two static powder coating lines, which ensures the high quality of our products. All our products and operation are ISO:9001 certified , and all our racks / shelving are approved by SGS company .
Our main products are heavy duty rack, medium duty rack, light duty rack, cantilever rack, mezzanine floor, drive in rack, and so on.
Welcome to visit our company.

FAQ

Q: Are you manufacturer or trading company?
A: We are experienced manufacturer in the warehouse storage industry.

Q: How is your delivery time?
A: Generally, it is within 25 days against formal order and deposit. It also depends on other factors such as order quantity.

Q: What is the payment term?
A: T/T 30% as deposit, and 70% before delivery. We'll show you the photos of the products and packages before you pay the balance.

Q: What is your terms of delivery?
A: EXW, FOB

Q: Are samples available?
A: Yes, We can supply the sample if we have ready parts in stock, but the customers have to pay the sample cost and the courier cost.

Q: What is the minimum order quantity?
A: Generally, MOQ is 10sets.

Q: Can I make my own brand and designed products?
A: Yes, we do both OEM and ODM, so you can make your own product with your own logo.

Q: Where is your factory? Can I visit it?
A: Our factory located in Nanjing, Welcome to visit our factory. We can arrange pick-up from the airport or train station for you.

Q: What parameters do I need to provide for an accurate quotation?
1) Quantity(set)
2) Size: Length*Width*Height (mm) or samples or technical drawings
3) Load capacity per layer(kg)
4) Number of layers
Q: What is the material being used for your products?
A: Mild steel Q235.

Q: I don't have drawing or picture available for the products, could you design it for me?
A: Yes, we can make the best suitable design for you but need to knowmore details.

Q: Do I get any guarantee from your company?
A: 3 years warranty

Q: How do you make our business long-term and good relationship?
A: Quality makes trust and reputation, plus competitive price to ensure our customers benefit ;
